

# Level 2

## Refresher

One-day refresher workshop for EMS assessors credentialed in Level 2 Wheeled Mobility & Postural Management (and Complex Custom Fabrication).

### Objectives:

- To review positioning principles for people with complex physical presentations and conditions
- To develop clinical reasoning, problem solving strategies and thinking outside the usual
- To be familiar with current research and best practice guidelines as they relate to wheelchair users with complex needs
- To become familiar with any changes in technology or product options that can be used with clients who have complex wheeled mobility and postural management needs
- To review assessment tools and training strategies for wheelchair users
- To review indicators for complex custom fabrication

### Programme:

9.00 – 10.30

- Principles of seating for people with complex physical needs
- Attention to detail – integrating powered seating/standing functions

10.30 – 10.45 – Morning tea

10.45 – 12.30
